European and International Corporate Targets – Indonesia

Posted on 2025/11/19 by darknights

Several multi-national companies operate and invest in Indonesia, such as **Shell**, **BP**, **Unilever**, **Rolls Royce** and **GlaxoSmithKline**, who have a large presence. In UK, **Standard Chartered** bank have investments in Indonesia and so does **Prudential Plc**. Other UK-based companies operating are **Arup**, **Mott MacDonald** and **PwC**.

The largest multinational bank operating in Indonesia is **HSBC**, which is a suitable target for coordinated action since it has branches and offices across the globe. We propose that where appropriate, individuals in each territory and region, should research which companies are operating in Indonesia, circulate and make that information and take direct action in solidarity with the prisoners of the anti-authoritarian mass uprising.

Against torture – For social war.
